

Catalyst Insider Income Fund

Class A: IIXAX Class C: IIXCX Class I: IIXIX

**SUMMARY PROSPECTUS
NOVEMBER 1, 2017**

Before you invest, you may want to review the Fund's complete prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund at http://catalystmutualfunds.com/literature_and_forms. You can also get this information at no cost by calling 1-866-447-4228, emailing info@catalystmf.com or by asking any financial intermediary that offers shares of the Fund. The Fund's prospectus and statement of additional information, both dated November 1, 2017 are incorporated by reference into this summary prospectus and may be obtained, free of charge, at the website or phone number noted above.

FUND SUMMARY: CATALYST INSIDER INCOME FUND

Investment Objective: The Fund’s objective is high current income with low interest rate sensitivity.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on purchases of Class A shares if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund. More information about these and other discounts is available from your financial professional and is included in the section of the Fund’s prospectus entitled **How to Buy Shares** on page 64 and **Appendix A – Intermediary-Specific Sales Charge Reductions and Waivers**, and in the sections of the Fund’s Statement of Additional Information entitled **Reduction of Up-Front Sales Charge on Class A Shares** on page 57 and **Waiver of Up-Front Sales Charge on Class A Shares** on page 58.

Shareholder Fees (fees paid directly from your investment)	Class A	Class C	Class I
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	4.75%	None	None
Maximum Deferred Sales Charge (Load) (as a % of the original purchase price)	1.00%	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None	None
Redemption Fee	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	1.00%	1.00%	1.00%
Distribution and Service (12b-1) Fees	0.25%	1.00%	0.00%
Other Expenses	4.84%	4.84%	4.84%
Acquired Fund Fees and Expenses¹	0.03%	0.03%	0.03%
Total Annual Fund Operating Expenses	6.12%	6.87%	5.87%
Fee Waiver and/or Expense Reimbursement²	(5.09)%	(5.09)%	(5.09)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.03%	1.78%	0.78%

¹ Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund’s financial highlights because the financial statements include only the direct operating expenses incurred by the Fund, not the indirect costs of investing in other investment companies.

² The Advisor has contractually agreed to waive fees and/or reimburse expenses of the Fund to the extent necessary to limit operating expenses (excluding brokerage costs; underlying fund expenses; borrowing costs such as (a) interest and (b) dividends on securities sold short; taxes; and, extraordinary expenses) at 1.00%, 1.75% and 0.75% for Class A shares, Class C shares and Class I shares, respectively, through October 31, 2018. This agreement may only be terminated by the Fund’s Board of Trustees on 60 days’ written notice to the Advisor and upon the termination of the Management Agreement between the Trust and the Advisor. Fee waivers and expense reimbursements are subject to possible recoupment by the Advisor from the Fund in future years on a rolling three-year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the lesser of the expense limitation in place at the time of waiver/reimbursement and the expense limitation in place at the time of recapture.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated, and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<u>YEAR</u>	<u>Class A</u>	<u>Class C</u>	<u>Class I</u>
1	\$575	\$181	\$80
3	\$1,774	\$1,573	\$1,293
5	\$2,946	\$2,913	\$2,484
10	\$5,762	\$6,050	\$5,375

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. The portfolio turnover rate of the Fund for the fiscal period ended June 30, 2017 was 35% of the average value of its portfolio.

Principal Investment Strategies:

The Fund seeks to achieve its investment objective by investing primarily in short-term U.S. corporate bonds issued by corporations whose executives are purchasing shares of the company’s common stock. The Fund may invest in corporate bonds of any credit quality (including “junk” bonds), effective maturity or average modified duration, but intends to hold a majority of the portfolio in investment grade (rated BBB or higher by Standard & Poor’s Rating Services or the equivalent by Moody’s Investor Service, Inc. or Fitch, Inc.) corporate bonds with an average effective maturity of less than four years and an average modified duration of less than three and a half.

The Advisor uses public information that is filed with the Securities and Exchange Commission (“SEC”) on corporate insider buying activity for its investment decisions. The Advisor’s research and quantitative back-testing of insider trading data over long periods of time has resulted in the development of a proprietary method of analyzing insider trading activity that it believes can substantially reduce the likelihood of bankruptcy. The underlying thesis is that corporate insiders know more about the prospects of the company than anybody else and would not take a stake in the equity of their company if the company were in jeopardy of declaring bankruptcy.

The Advisor’s investment process focuses on insider identities (position in the company), motivations, insider trading trends, trading volumes, firm size and other factors to select what the Advisor believes to be the most significant insider buying signals – the signals that are historically associated with companies that have avoided bankruptcy. Corporate bonds meeting the insider activity screen criterion are analyzed and selected in attempt to establish a portfolio with the target credit quality, duration, maturity and SEC yield. Bonds are held to maturity but may be sold if insider trading trends reverse in a manner the Advisor believe to be significant.

The Fund is classified as “non-diversified” for purposes of the Investment Company Act of 1940 (the “1940 Act”), which means a relatively high percentage of the Fund’s assets may be invested in the securities of a limited number of companies that could be in the same or related economic sectors.

Principal Risks of Investing in the Fund:

As with any mutual fund, there is no guarantee that the Fund will achieve its objective. Investment markets are unpredictable and there will be certain market conditions where the Fund will not meet its investment objective and will lose money. The Fund's net asset value and returns will vary and you could lose money on your investment in the Fund and those losses could be significant.

The following summarizes the principal risks of investing in the Fund. These risks could adversely affect the net asset value, total return and the value of the Fund and your investment

Credit Risk. Credit risk is the risk that an issuer of a security will fail to pay principal and interest in a timely manner, reducing the Fund's total return. The Fund may invest in high-yield, high-risk securities, commonly called "junk bonds", that are not investment grade and are generally considered speculative because they present a greater risk of loss, including default, than higher quality debt securities. Credit risk may be substantial for the Fund.

Fixed Income Risk. When the Fund invests in fixed income securities, the value of your investment in the Fund will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities owned by the Fund. In general, the market price of fixed income securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities. Other risk factors include credit risk (the debtor may default) and prepayment risk (the debtor may pay its obligation early, reducing the amount of interest payments). These risks could affect the value of a particular investment by the Fund, possibly causing the Fund's share price and total return to be reduced and fluctuate more than other types of investments.

Interest Rate Risk. Interest rate risk is the risk that bond prices overall, including the prices of securities held by the Fund, will decline over short or even long periods of time due to rising interest rates. Bonds with longer maturities tend to be more sensitive to interest rates than bonds with shorter maturities. For example, if interest rates go up by 1.0%, the price of a 4% coupon bond will decrease by approximately 1.0% for a bond with 1 year to maturity and approximately 4.4% for a bond with 5 years to maturity.

Junk Bond Risk. Lower-quality bonds, known as "high yield" or "junk" bonds, present greater risk than bonds of higher quality, including an increased risk of default. An economic downturn or period of rising interest rates could adversely affect the market for these bonds and reduce the Fund's ability to sell its bonds. The lack of a liquid market for these bonds could decrease the Fund's share price.

Management Risk. The portfolio manager's judgments about the attractiveness, value and potential appreciation of particular stocks or other securities in which the Fund invests may prove to be incorrect and there is no guarantee that the portfolio manager's judgment will produce the desired results.

Market Risk. Overall stock market risks may also affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels and political events affect the securities markets.

Non-diversification Risk. Because a relatively high percentage of a non-diversified Fund's assets may be invested in the securities of a limited number of companies that could be in the same or related economic sectors, the Fund's portfolio may be more susceptible to any single economic, technological or regulatory occurrence than the portfolio of a diversified fund.

Security Risk. The value of the Fund may decrease in response to the activities and financial prospects of an individual security in the Fund's portfolio.

Performance:

The bar chart and accompanying table shown below provide an indication of the risks of investing in the Insider Income Fund by showing the total return of its Class A shares for each full calendar year, and by showing how its average annual returns compare over time with those of a broad measure of market performance. Class C shares and Class I shares would have similar annual returns to Class A shares because they are invested in the same portfolio of securities; however, the returns for Class C shares and Class I shares would be different from Class A shares because Class C shares and Class I shares have different expenses than Class A shares. Sales charges are reflected in the information shown below in the table, but the information shown in the bar chart does not reflect sales charges, and, if it did, returns would be lower. How the Fund has performed in the past (before and after taxes) is not necessarily an indication of how it will perform in the future. Updated performance information is available at no cost by calling 1-866-447-4228.

Annual Total Returns

During the period shown in the bar chart, the highest return for a quarter was 3.13% (quarter ended March 31, 2015), and the lowest return for a quarter was (4.16)% (quarter ended December 31, 2015). The Fund's Class A shares year-to-date return for the period ended September 30, 2017 was 1.81%.

**Average Annual Total Returns
(for the periods ended December 31, 2016)**

	1 Year	Since Inception (7/29/2014)
Class A		
Return Before Taxes	0.10%	(2.96)%
Return After Taxes on Distributions	(0.78)%	(3.81)%
Return After Taxes on Distributions and Sale of Fund Shares	0.04%	(2.63)%
Class C		
Return Before Taxes	5.19%	(1.70)%
Class I		
Return Before Taxes	6.40%	(0.74)%
Bloomberg Barclays Capital Aggregate Bond Index (reflects no deduction for fees, expenses or taxes)	2.65%	2.06%

After-tax returns are calculated using the highest historical individual federal marginal income tax rate and do not reflect the impact of state and local taxes. Actual after-tax returns depend on a shareholder's tax situation and may differ from those shown. After-tax returns are not relevant for shareholders who hold Fund shares in tax-deferred accounts or to shares held by non-taxable entities. After-tax returns are only shown for Class A shares. After-tax returns for other share classes will vary.

Advisor: Catalyst Capital Advisors LLC (the "Advisor") is the Fund's investment advisor.

Portfolio Managers: David Miller, Senior Portfolio Manager of the Advisor, and Charles Ashley, Assistant Portfolio Manager of the Advisor, serve as the Fund's Portfolio Managers. Messrs. Miller and Ashley are jointly and primarily responsible for the day to day management of the Fund's portfolio. Mr. Miller has served the Fund in this capacity since the Fund commenced operations in 2014. Mr. Ashley has served the Fund in this capacity since November 2017.

Purchase and Sale of Fund Shares: The minimum initial investment in all share classes of the Fund is \$2,500 for regular and IRA accounts, and \$100 for an automatic investment plan account. The minimum subsequent investment in all share classes of the Fund is \$50. You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open. Redemption requests may be made in writing, by telephone or through a financial intermediary to the Fund or the Transfer Agent and will be paid by check or wire transfer.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. If you are investing in a tax-deferred plan, distributions may be taxable upon withdrawal from the plan.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related

companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
